## ABOUT ME

Passionate Web Developer and Machine Learning enthusiast with ability to problem solving and a drive to see things through completion. Always gets motivated to learn technology and excited to take on new challenges. Quick learner and a team player, who is eager to contribute to the success of the company. Seeking opportunities to further develop my skills and grow as a professional in a challenging and innovative work environment.

## WORK EXPERIENCE

### ReactJS Intern | Sahajananda Tech Services And Research Center Private Limited

Dec 2022 - May 2023

- Designed and assembled a responsive social media web application frontend using ReactJS and Tailwind CSS.
- Engineered valuable skills in frontend development and collaborated effectively in a team environment.
- Programmed and optimized the user interface for enhanced user experience, embracing industry best practices.

## PROJECTS

### Youtube Clone Web Application

ReactJS | Material UI | Rapid API

- **Frontend Mastery:** Developed a YouTube clone using ReactJS and Material UI, showcasing proficiency in crafting dynamic and responsive user interfaces.
- **API Expertise:** Implemented seamless integration of the YouTube API from Rapid API, demonstrating adept skills in handling and fetching data.
- **Design Elegance:** Enhanced visual aesthetics and user experience by effectively leveraging Material UI in the web application.
- **ReactJS Proficiency:** Mastered ReactJS core concepts while building the clone, contributing to a robust and efficient frontend architecture.

### Full Stack Notes App

ReactJS | Python | Django | Tailwind CSS

- **Tech Stack Proficiency:** Developed a robust notes application using Django for the backend, React.js for the frontend, and enhanced the UI with Tailwind CSS, allowing seamless CRUD operations.
- **Backend Mastery:** Gained expertise in backend development, mastering Python and Django for robust server-side functionality.
- **API Development:** Extensive experience in creating APIs, demonstrating a deep understanding of data communication between frontend and backend.
- **Tailwind CSS Styling:** Implemented Tailwind CSS for efficient and modern styling, contributing to an enhanced user interface.

## SKILLS

### PROGRAMMING LANGUAGES

Python | Javascript

### WEB DEVELOPMENT

HTML5 AND CSS3 | ReactJS | NextJS | Tailwind CSS | Context API | ExpressJS | Django | MongoDB | RESTfull APIs

### DATA VISUALISATION and MACHINE LEARNING

Numpy | Pandas | Data Visualization: Matplotlib, Seaborn and Plotly | Data Cleaning | Machine Learning Libraries: Scikit-learn | Jupyter Notebooks

### VERSION CONTROL

Git and Github

## OTHER EXPERIENCES

### Freelance Frontend Developer

- Successfully completed 2 web development projects at **Sahajananda Tech Services And Research Center Private Limited**, showcasing proficiency in front-end technologies.
- Demonstrated strong problem-solving skills and attention to detail in delivering high-quality, responsive websites.
- Collaborated effectively with clients to understand project requirements, ensuring timely delivery and client satisfaction.

## EDUCATION

### Bachelor of Technology in Computer Sciences and Engineering Specialization in AIML

Sandip University, Nashik, India | GPA - 8.15

## PARTICIPATIONS

- Participated in **SUNHACKS Hackathon** organized by **Sandip University**.
- Competed in the **16th Delhi International Open Grandmasters Chess Tournament** (2018).
